The exhibitions will review the MARKETING of the „deficit“, of ideology, work, leisure, news, dreams. **KAUNAS PHOTO DAYS** will present shows that concentrate on the man both, as participants of the market and as its items to be hired. Nordic Image: A Festival within a Festival

Photography of the countries of Northern Europe is fairly known, but diverse in themes, established on the world scene for its maturity. Sometimes it is radically contemporary or strikingly similar to the classical Lithuanian photography. The choice of exhibitions for Nordic IMAGE is set to cross the line of our expectations and break stereotypes we might have about Nordic photography, lifestyle and values.

Ismo Hölttö, 1966
