KAUNAS PHOTO DAYS
Second International Festival of Photography - 2005

European Photography

Attention! Events described on this page have already taken place

The 2005 edition of **KAUNAS PHOTO DAYS** festival, launched the end of October 2005 was a quiet and different from the first festival in 2005. The second festival consisted of only a handful of exhibitions, a conference and several satellite events, such as exhibiting art photographs in city trolley-buses. The exhibitions were dedicated to European photography, based on **KAUNAS PHOTO DAYS** festival's membership within the freshly founded **Photo Festival Union** of Europe. It was followed by the tribute to a late Lithuanian artist **Diana Cikanavičienė**, whose works were for the first time compiled in a catalog, published by **KAUNAS PHOTO DAYS** festival and revealing the development of her photographic work.

A lot of energy has been put to promote Lithuanian photography in partner festivals. **KAUNAS PHOTO DAYS** festival presented a unique combination of Father and Son photographers' **Vytautas Stanionis Sr.** and **Vytautas Stanionis Jr.** in the founding exhibition of Photo festival Union in Lodz. The same artists were later presented within the program of **BACKLIGHT 05**, triennale of photography in Tampere, Finland, along with an exhibition of Diana Cikanavičienė's works.
