

Kaunas Photo 2020 – Peripheral Visions. Exhibitions

KAUNAS PHOTO festival with the theme “**Peripheral Visions**” turns the issues of the periphery, the province, the “insignificant” places, storylines, events and phenomena. By submitting their works to the program of the 17th KAUNAS PHOTO festival and the 10th edition of KAUNAS PHOTO STAR contest, 170 artists from half a hundred countries of the world highlighted what was not important so far, but has now become significant. The main part of the 17th KAUNAS PHOTO festival program consists of thematic exhibitions in museums, galleries, cultural venues, squares and outdoor spaces of Kaunas. Following the theme of the festival, part of the program also goes to Lithuanian towns and villages: Kražiai, Tverai, Užpaliai, where exhibitions are held based on artistic residences that have already taken place. A mini-festival with several exhibitions, educational events, screenings and a residence of a foreign artist is organized in Lazdijai.

KAUNAS PHOTO 2020 artistic program directed by Mindaugas Kavaliauskas, assisted by Kristina Juraitė, Karolina Krinickaitė, Donatas Stankevičius, Fred Boucher.
